Research Participation Program

However, research participants often find the learning experience of participating in research studies rewarding, and all JCU Singapore students are welcome to participate provided they meet the specific eligibility criteria for individual studies (research credit will not apply for anyone outside the PSRPP).

JCU uses the SONA research management system to connect researchers with participants and to manage the recording of research credit points for eligible researchers.

GO

Available?	Study Information	Eligibility
Timeslots Available	(SNG) Effects of Pinyin during Foreign Language Acquisition Part II (6 Credits) Ever wondered how having a visual aid affects your ability to learn a new language? Participants will complete a language questionnaire and a computer-based task.	You are not eligible if you have previously taken part in this study
Timeslots Available	(SNG) Can cream cheese make vegetables taste better? (4 Credits) Participation will involve the consumption of cream cheese in the reduction of perception of bitterness in a taste test of phenylthiocarbamide (PTC). Participants are also invited to complete two short questionnaires thereafter.	Aged 18 and above
Timeslots Available	(SNG) Affect Misattribution in an Asian Context (4 Credits)	Participants above 18 years of age with basic reading skills in the Chinese language are sought.
Timeslots Available	(CNS,TSV) Lets Talk About Sex. (1 Credits) How do you communicate to with new sexual partners?	

Study Sign-Up

Study Name	(SNG) Can cream cheese make vegetables taste better?
Study Type	 Standard (lab) study This is a standard lab study. To participate, sign up, and go to the specified location at the chosen time.
Credits	4 Credits
Duration	30 minutes
Abstract	Participation will involve the consumption of cream cheese in the reduction of perception of bitterness in a taste test of phenylthiocarbamide (PTC). Participants are also invited to complete two short questionnaires thereafter.
Description	You are invited to take part in a research project about the effects of cream cheese consumption in the reduction of the bitter taste experienced in a phenylthiocarbamide (PTC) taste test. Similar compounds to PTC are found in vegetables like cabbage and broccoli and implications of the effectiveness of cream cheese as a buffer for the unpleasant bitterness in select vegetable types might promote a healthier diet.
Preparation	Do not hesitate to contact the researcher if there are no desired timeslots available but you are still interested in participating.
Eligibility Requirements	Aged 18 and above
Researcher	Kenneth Loong  
Deadlines	Sign-Up: 18 hour(s) before the appointment Cancellation: 17 hour(s) before the appointment

FAQs

Are the studies **safe** to participate in?

- Yes, the studies are safe to participate in as they have been reviewed by HREC (ethics board).
- However, if discomfort is experienced, please notify the researchers immediately so that they can advise you on the appropriate support channels.

Can I participate and obtain credits **after** the research participation deadline?

- No. Credits obtained after the research participation deadline will not be counted.

Can I participate after obtaining the **maximum amount** of eligible credits?

- Yes! Researchers will be grateful
- However, if you are taking PY1101/PY1102 in the following trimester, do ensure that there are adequate studies available for you to attain the required credits

Can I **share credits** among modules (e.g., 20 credits for both PY1101 and PY1102)?

- No. Credits cannot be shared between the subjects.
- Strictly 20 credits for each module.

Can I **bring over or use** credits from the previous trimester?

- No. Credits cannot be brought over from the previous trimester
- Credits attained will be reset to 0 when the new trimester begins.
